HOW TO PRINT

> Printing from home

STEP 1: Please open the file that ends in .pdf (NOT in "forprintshop.pdf").

We recommend using Adobe Reader • free download at get.adobe.com/reader/

STEP 2: Print on 8.5" x 11" paper.

Do not allow your printer to "shrink to fit," but instead, print at 100% or "actual size."

STEP 3: Trim out print along the thin rule. Your finished size should be 5" x 7" or 8" x 10."

> Printing at a Photo Lab

STEP 1: Upload the file that ends in .jpg to your Photo Lab's Website, in the size of your choice.

STEP 2: Select the corresponding size.

STEP 3: Place your order with the Photo Lab.

> Printing at a Print Shop

STEP 1: Upload the file that ends in "forprintshop" to your Print Shop's Website, in the size of your choice.

STEP 2: Select the corresponding size.

STEP 3: Place your order with the Print Shop.

RESIZING

Your files are sized at 5" x 7", 8" x 10" and 11" x 14". Attempting to print at a larger size will result in loss of quality. You can print at 4" x 6", but know that the ratio is not the same as 5" x 7" and cropping will occur.

HOW YOU CAN USE YOUR PRINTABLES

You are free to print multiple copies, as long as they are for personal use, or to be given as a gift. You are free to hang them up in your home, place of worship, classroom or community center.

You are not allowed to share, repackage, resell or redistribute any printed pieces / files, or post them anywhere online (even for free).

Lots of hard work and love goes into designing every item— thank you for respecting these terms. If you have any questions about your printing or usage, please don't hesitate to contact us, at remodelaholic.com/contact.
